- If you need to purchase service credit in order to qualify for the ERI or for a higher category benefit, you must file the Application to Purchase with the Division of Pensions and Benefits no later than the day **before** your effective retirement date of May, June, or July 1, 2004.
- If you **qualify and file** for retirement under the ERI as described above and your employer, with your agreement, extends your retirement date, any service earned or purchased after your original ERI retirement date cannot be used to qualify for a better benefit under the ERI. That is, you cannot use this service to move from category 2 to category 1. You also cannot use this service to change from a Service or Early Retirement to a Veteran Retirement. For example, if you were classified as a veteran and, as of July 1, 2004, you were 54 years and 6 months old and had 25 years of pension membership credit in PERS, you would be eligible for Early Retirement benefits plus the ERI incentive under Category 1 outlined above. If your employer extended your retirement to July 1, 2005, you would be 55 years and 6 months old and have 26 years of pension membership credit in PERS. You would still be eligible for Early Retirement benefits plus the ERI incentive under Category 1 outlined above. You would not be eligible to receive Veteran Retirement benefits plus the Category 1 incentive.
